Best
PLUMBING & LIGHTING

Enjoy your new bathroom to the fullest!

A new high-efficiency, large capacity water heater can help you save on energy costs and deliver the hot water you need.

*After consultation.

Reconsider your hot water needs with this quick checklist:

- ✔ How many people live in your home?
- ✔ How many showers do you have?
- ✔ Do you have body sprays or shower jets?
- ✔ How many back-to-back showers does your household take?
- ✔ What is the average shower length?
- ✔ What size is your largest tub?
- ✔ Where will the water heater be installed?
- ✔ What fuel type do you prefer?
